

CAREER DEVELOPMENT TOOL KITS

Career Development Tool Kits were developed by professionals across North Dakota. These kits provide lessons and activities that are tied to ND Standards & Benchmarks, Counselor Standards, SCANS, and NCDG. Activities are included for all subject areas for grades 6, 8 and 10.

The Tool Kits are in the process of revision and will be added to this website. In the meantime, original copies are available in hard copy or via CD at the North Dakota Career Resource Network - at cte@nd.gov.
